

Section : Geography

Q.1 Choose the states which have a good number of lagoons.

- (A) Kerala
- (B) Bihar
- (C) West Bengal
- (D) Odisha

Choose the *correct* answer from the options given below:

- 1. (A), (B) and (D) only
- 2. (A), (B) and (C) only
- 3. (B) and (D) only
- 4. (A), (C) and (D) only

Options 1. 1

2. 2

3. 3

4. 4

Q.2 Who among the following introduced the concept of 'Neo determinism'?

- 1. Griffith Taylor
- 2. Ratzel
- 3. Vidal de la Blache
- 4. Semple

Options 1. 1

2. 2

3. 3

4. 4

Q.3 In the following identify the characteristics of dairy farming?

- (A) Highly Capital Intensive
- (B) Poor Health Care
- (C) Storage Facilities for fodder
- (D) Animal Sheds

Choose the *correct* answer from the options given below:

- 1. (A), (B) and (D) only
- 2. (A), (B) and (C) only
- 3. (B) and (D) only
- 4. (A), (C) and (D) only

Options 1. 1

2. 2

3. 3

4. 4

Q.4 Severely polluted Musi river is located in which city?

- 1. Etawah
- 2. Madurai
- 3. Hyderabad
- 4. Kanpur

Options 1. 1

2. 2

3. 3

4. 4

Q.5 Match List - I with List - II

List – I (Type of Port) List – II (Example)

- | | |
|--------------------|----------------|
| (A) Oil Ports | (I) Tripoli |
| (B) Packet Station | (II) Rotterdam |
| (C) Entrepot Ports | (III) Dover |
| (D) Naval Ports | (IV) Kochi |

Choose the correct answer from the options given below:

1. (A) - (1), (B) - (II), (C) - (III), (D) - (IV)
2. (A) - (1), (B) - (III), (C) - (II), (D) - (IV)
3. (A) - (1), (B) - (II), (C) - (IV), (D) - (III)
4. (A) - (III), (B) - (IV), (C) - (1), (D) - (II)

Options 1. 1

2. 2

3. 3

4. 4

Q.6 Rearing of animals organized on scientific basis is termed as _____.

1. Nomadic herding
2. Fazenda
3. Ranching
4. Milpa

Options 1. 1

2. 2

3. 3

4. 4

Q.7 The residential areas of the least choice, dilapidated houses, poor hygienic conditions, poor ventilation, lack of basic amenities, like drinking water, light and toilet facilities, etc. represent which of the following?

1. Conurbation
2. Town
3. Slum
4. Hamlet

Options 1. 1

2. 2

3. 3

4. 4

Q.8 Raniganj developed as which of the following type of town?

1. Mining Town
2. Industrial Town
3. Transport town
4. Cultural town

Options 1. 1

2. 2

3. 3

4. 4

Q.9 Brundtland Report (1987) is entitled as which of the following?

1. Our Common Future
2. Our Common Past
3. Our Common Present
4. Our Common Goals

Options 1. 1

2. 2

3. 3

4. 4

Q.10 Match List - I with List - II

List - I (Type of Town) List - II (Example)

- | | |
|-----------------|-------------|
| (A) Educational | (1) Aligarh |
| (B) Industrial | (II) Salem |

List – I (Type of Town) List – II (Example)

(C) Administrative (III) Imphal

(D) Tourist (IV) Pachmarhi

Choose the correct answer from the options given below:

1. (A) - (1), (B) - (III), (C) - (III), (D) - (IV)
2. (A) - (1), (B) - (III), (C) - (II), (D) - (IV)
3. (A) - (1), (B) - (II), (C) - (IV), (D) - (III)
4. (A) - (III), (B) - (IV), (C) - (I), (D) - (II)

Options 1. 1

2. 2

3. 3

4. 4

Q.11 Why do the people of Bundelkhand region tend to live in compact settlements?

1. For the security or defence purpose
2. For doing agricultural activity
3. As the terrain is suitable for them
4. People of the same community tend to live together

Options 1. 1

2. 2

3. 3

4. 4

Q.12 The Channel Tunnel railway connects which of the following cities?

1. London with Paris
2. Manali with Leh
3. New York with Washington D.C.
4. Perth with Sydney

Options 1. 1

2. 2

3. 3

4. 4

Q.13 Arrange the following international airports in east to west direction.

- (A) Sydney
- (B) Aden
- (C) Jakarta
- (D) Lagos

Choose the correct answer from the options given below:

1. (A), (B), (C), (D)
2. (A), (C), (B), (D)
3. (B), (A), (D), (C)
4. (C), (B), (D), (A)

Options 1. 1

2. 2

3. 3

4. 4

Q.14 High fertility, high mortality and slow population growth are characteristics of which of the following stage of demographic transition?

1. Low Fluctuating Stage
2. Stage I of Demographic Transition
3. Stage II of Demographic Transition
4. Stage III of Demographic Transition

Options 1. 1

2. 2

3. 3

Q.15 Identify the correct statements about Indian railways out of the following.

- (A) Indian railway was introduced in 1953.
- (B) It is the largest government undertaking in the country.
- (C) The first Bombay to Thane line covered a distance of 34 km.
- (D) Majority track is of meter gauge category.

Choose the *correct* answer from the options given below:

- 1. (A), (B) and (C) only
- 2. (B) and (C) only
- 3. (A), (B) and (D) only
- 4. (C) and (D) only

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Q.16 Who said, "Asia has many places where people are few and few places where people are many."?

- 1. Malthus
- 2. Thompson
- 3. Taylor
- 4. Cressey

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Q.17 Name the type of farming which is based on social ownership of the means of production and collective labour.

- 1. Collective Farming
- 2. Co-operative Farming
- 3. Truck Farming
- 4. Agro-Farming

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Q.18 Identify the statements which are NOT correct with reference of statewide density of population in India in 2011?

- (A) In Bihar the density of population was more than four times of national average.
- (B) It was higher in Kerala as compared to West Bengal.
- (C) Sikkim reported lesser density than Arunachal Pradesh.
- (D) Tamil Nadu reported density more than Madhya Pradesh.

Choose the *correct* answer from the options given below:

- 1. (A), (B) and (D) only
- 2. (A) and (D) only
- 3. (A), (B) and (C) only
- 4. (B), (C) and (D) only

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Q.19 Arrange the following approaches of geography in sequence from old to new.

- (A) Post Modernism
- (B) Radical School

- (C) Spatial Organisation
(D) Areal differentiation

Choose the *correct* answer from the options given below:

1. (A), (D), (C), (B)
2. (D), (C), (A), (B)
3. (B), (A), (C), (D)
4. (D), (C), (B), (A)

Options 1. 1

2. 2

3. 3

4. 4

Q.20 Locally called units panna and nagla are common in which of the following types of settlements?

1. Nucleated Settlement
2. Fragmented Settlement
3. Isolated Settlement
4. Hamleted Settlement

Options 1. 1

2. 2

3. 3

4. 4

Q.21 Match List-I with List-II

List-I (Field/Sub-field of Human Geography)

(A) Political Geography

(B) Economic Geography

(C) Geography of Leisure

(D) Settlement Geography

List-II (Interface with Sister Disciplines of Social Science)

(I) Sociology

(II) Rural Planning

(III) Psephology

(IV) Agricultural Sciences

Choose the *correct* answer from the options given below:

1. (A) – (I), (B) – (III), (C) – (III), (D) – (IV)
2. (A) – (I), (B) – (III), (C) – (II), (D) – (IV)
3. (A) – (I), (B) – (II), (C) – (IV), (D) – (III)
4. (A) – (III), (B) – (IV), (C) – (I), (D) – (II)

Options 1. 1

2. 2

3. 3

4. 4

Q.22 Which of the following personnel is performing quaternary activity?

1. Transporter
2. Trader
3. Software developer
4. News Reader

Options 1. 1

2. 2

3. 3

4. 4

Q.23 Which of the following transport route of India is the longest?

1. East-West Corridor
2. North-South Corridor
3. Konkan Railway
4. National Waterway Number 1

Options 1. 1

2. 2

3. 3

4. 4

Q.24 Match List - I with List - II

List-I (Railway Zones) List-II (Headquarters)

- | | |
|-------------------|------------------|
| (A) South Eastern | (1) Kolkata |
| (B) Southern | (II) Allahabad |
| (C) East Coast | (III) Chennai |
| (D) North Central | (IV) Bhubaneswar |

Choose the correct answer from the options given below:

1. (A) - (1), (B) - (III), (C) - (IV), (D) - (II)
2. (A) - (1), (B) - (III), (C) - (II), (D) - (IV)
3. (A) - (I), (B) - (II), (C) - (IV), (D) - (III)
4. (A) - (III), (B) - (IV), (C) - (I), (D) - (II)

Options 1. 1

2. 2

3. 3

4. 4

Q.25 Dusseldorf port is located on which river?

1. Rhine river
2. Danube river
3. St. Lawrence River
4. Volga river

Options 1. 1

2. 2

3. 3

4. 4

Q.26 The following statement represents which one of the given options of markets:

"These are quasi-urban centres. They serve as trading centres of the most rudimentary type. Here, personal and professional services are not well-developed. They cater to nearby settlements".

1. Rural marketing centres
2. Urban marketing centres
3. Trading centres
4. Periodic markets

Options 1. 1

2. 2

3. 3

4. 4

Q.27 Arrange the Modern Indian Languages families in descending order according to percentage of speakers in India

- (A) Sino-Tibetan
- (B) Dravidian
- (C) Indo-European
- (D) Austric

Choose the correct answer from the options given below:

1. (A), (B), (C), (D)
2. (A), (C), (B), (D)
3. (B), (A), (D), (C)
4. (C), (B), (D), (A)

Options 1. 1

2. 2

3. 3

Q.28 In which part of India are the majority of Gondwana coal fields located?

1. Coastal areas of Tamil Nadu
2. Damodar Valley
3. Krishna Valley
4. Narmada Valley

Options 1. 1

2. 2
3. 3
4. 4

Q.29 In India, the share of which of the following Land-use category has reported a positive increase from 1950-51 to 2014-15.

1. Barren and Unculturable Waste Land
2. Forests
3. Culturable Waste Land
4. Fallow other than Current Fallow

Options 1. 1

2. 2
3. 3
4. 4

Q.30 Which of the following is an example of a non-metallic mineral which is inorganic in origin?

1. Bauxite
2. Coal
3. Mica
4. Manganese

Options 1. 1

2. 2
3. 3
4. 4

Q.31 Match List - I with List - II

List-I (Type of Town) List-II (Example)

- | | |
|-----------------------|-------------------|
| (A) Ancient Towns | (1) Madurai |
| (B) Medieval Towns | (II) Lucknow |
| (C) Modern Towns | (III) Gandhinagar |
| (D) Post-independence | (IV) Mumbai |

Choose the correct answer from the options given below:

1. (A) - (1), (B) - (II), (C) - (III), (D) - (IV)
2. (A) - (1), (B) - (III), (C) - (II), (D) - (IV)
3. (A) - (I), (B) - (II), (C) - (IV), (D) - (III)
4. (A) - (III), (B) - (IV), (C) - (I), (D) - (II)

Options 1. 1

2. 2
3. 3
4. 4

Q.32 Arrange the given satellites chronologically based on their year of launch.

- (A) Aryabhata
- (B) Bhaskar-1
- (C) Rohini
- (D) INSAT 1-B

Choose the correct answer from the options given below:

1. (A), (B), (C), (D)
2. (A), (C), (B), (D)
3. (B), (A), (D), (C)
4. (C), (B), (D), (A)

Options 1. 1

2. 2
3. 3
4. 4

Q.33 Which of the following are correct with reference to the concept of 'Development'?

- (A) Development refers to changes over a period of time.
- (B) Development is quantitative and value neutral.
- (C) Development means a qualitative change.
- (D) Positive growth does not always lead to development.

Choose the *correct* answer from the options given below:

1. (A), (B) and (D) only
2. (A), (B) and (C) only
3. (B), (C) and (D) only
4. (A), (C) and (D) only

Options 1. 1

2. 2
3. 3
4. 4

Q.34 Arrange the following oil refineries of India from east to west direction:

- (A) Numaligarh
- (B) Barauni
- (C) Bongaigaon
- (D) Mathura

Choose the *correct* answer from the options given below:

1. (A), (B), (C), (D)
2. (A), (C), (B), (D)
3. (B), (A), (C), (D)
4. (C), (B), (D), (A)

Options 1. 1

2. 2
3. 3
4. 4

Q.35 The revolution in the eighteenth century in transport came about only after the invention of which of the following?

1. Wheel
2. Petroleum
3. Electricity
4. Steam engine

Options 1. 1

2. 2
3. 3
4. 4

Q.36 The first population Census in India was conducted in which of the following year?

1. 1891
2. 1901
3. 1872
4. 1857

Options 1. 1

2. 2
3. 3

Q.37 Q. Which of the following characteristics is not associated with "Technopolies"?

1. They have presence of high-tech Industries.
2. They are self-sustained.
3. They employ highly specialized workers.
4. They use locally available raw materials.

Options 1. 1

2. 2
3. 3
4. 4

Q.38 Which one of the following is NOT an area of sparse population?

1. Kalahari
2. Cental Asia
3. Equatorial region
4. South Asia

Options 1. 1

2. 2
3. 3
4. 4

Q.39 Which of the following is a pull factor for migrants?

1. Poor living Conditions.
2. Unemployment.
3. Better Job Opportunities.
4. Natural Disasters.

Options 1. 1

2. 2
3. 3
4. 4

Q.40 Which one of the following is a fibre crop?

1. Rice
2. Wheat
3. Maize
4. Jute

Options 1. 1

2. 2
3. 3
4. 4

Q.41 Read the given passage carefully and answer the following questions.

Satellites are mode of communication in themselves as well as they regulate the use of other means of communication. However, use of satellite in getting a continuous and synoptic view of larger area has made satellite communication very vital for the country due to the economic and strategic reasons. Satellite images can be used for the weather forecast, monitoring of natural calamities, surveillance of border areas, etc. On the basis of configuration and purposes, satellite system in India can be grouped into two: Indian National Satellite System (INSAT) and Indian Remote Sensing Satellite System (IRS). The INSAT, which was established in 1983, is a multi-purpose satellite system for telecommunication, meteorological observation and for various other data and programmes. The IRS satellite system became operational with the launching of IRS-IA in March 1988 from Vaikanour in Russia. India has also developed her own Launching Vehicle PSLV (Polar Satellite Launch Vehicle). These satellites collect data in several spectral bands and transmit them to the ground stations for various uses. The National Remote Sensing Centre (NRSC) at

Hyderabad provides facilities for acquisition of data and its processing. These are very useful in the management of natural resources.

Satellite Images can NOT be used directly for _____.

1. Population Enumeration
2. Weather Forecasting
3. Monitoring of Natural Calamities
4. Natural Resource Management

Options 1. 1

2. 2

3. 3

4. 4

Q.42 Read the given passage carefully and answer the following questions.

Satellites are mode of communication in themselves as well as they regulate the use of other means of communication. However, use of satellite in getting a continuous and synoptic view of larger area has made satellite communication very vital for the country due to the economic and strategic reasons. Satellite images can be used for the weather forecast, monitoring of natural calamities, surveillance of border areas, etc. On the basis of configuration and purposes, satellite system in India can be grouped into two: Indian National Satellite System (INSAT) and Indian Remote Sensing Satellite System (IRS). The INSAT, which was established in 1983, is a multi-purpose satellite system for telecommunication, meteorological observation and for various other data and programmes. The IRS satellite system became operational with the launching of IRS-IA in March 1988 from Vaikanour in Russia. India has also developed her own Launching Vehicle PSLV (Polar Satellite Launch Vehicle). These satellites collect data in several spectral bands and transmit them to the ground stations for various uses. The National Remote Sensing Centre (NRSC) at Hyderabad provides facilities for acquisition of data and its processing. These are very useful in the management of natural resources.

The acquisition and processing of satellite data is performed by _____ in India.

1. Indian Institute of Remote Sensing (IIRS)
2. National Aeronautics and Space Administration (NASA)
3. Space Application Centre (SAC)
4. National Remote Sensing Centre (NRSC)

Options 1. 1

2. 2

3. 3

4. 4

Q.43 Read the given passage carefully and answer the following questions.

Satellites are mode of communication in themselves as well as they regulate the use of other means of communication. However, use of satellite in getting a continuous and synoptic view of larger area has made satellite communication very vital for the country due to the economic and strategic reasons. Satellite images can be used for the weather forecast, monitoring of natural calamities, surveillance of border areas, etc. On the basis of configuration and purposes, satellite system in India can be grouped into two: Indian National Satellite System (INSAT) and Indian Remote Sensing Satellite System (IRS). The INSAT, which was established in 1983, is a multi-purpose satellite system for telecommunication, meteorological observation and for various other data and programmes. The IRS satellite system became operational with the launching of IRS-IA in March 1988 from Vaikanour in Russia. India has also developed her own Launching Vehicle PSLV (Polar Satellite Launch Vehicle). These satellites collect data in several spectral bands and transmit them to the ground stations for various uses. The National Remote Sensing Centre (NRSC) at Hyderabad provides facilities for acquisition of data and its processing. These are very useful in the management of natural resources.

Which of the following satellites is helpful in the management of natural resources of India?

1. INSAT-1A

2. IRS-IA
3. INSAT-2A
4. Edusat

Options 1. 1

2. 2
3. 3
4. 4

Q.44 Read the given passage carefully and answer the following questions.

Satellites are mode of communication in themselves as well as they regulate the use of other means of communication. However, use of satellite in getting a continuous and synoptic view of larger area has made satellite communication very vital for the country due to the economic and strategic reasons. Satellite images can be used for the weather forecast, monitoring of natural calamities, surveillance of border areas, etc. On the basis of configuration and purposes, satellite system in India can be grouped into two: Indian National Satellite System (INSAT) and Indian Remote Sensing Satellite System (IRS). The INSAT, which was established in 1983, is a multi-purpose satellite system for telecommunication, meteorological observation and for various other data and programmes. The IRS satellite system became operational with the launching of IRS-IA in March 1988 from Vaikanour in Russia. India has also developed her own Launching Vehicle PSLV (Polar Satellite Launch Vehicle). These satellites collect data in several spectral bands and transmit them to the ground stations for various uses. The National Remote Sensing Centre (NRSC) at Hyderabad provides facilities for acquisition of data and its processing. These are very useful in the management of natural resources.

What is the name of Indian Satellite Launch Vehicle?

1. IRS-IA
2. PSLV
3. INSAT
4. ISRO

Options 1. 1

2. 2
3. 3
4. 4

Q.45 Read the given passage carefully and answer the following questions.

Satellites are mode of communication in themselves as well as they regulate the use of other means of communication. However, use of satellite in getting a continuous and synoptic view of larger area has made satellite communication very vital for the country due to the economic and strategic reasons. Satellite images can be used for the weather forecast, monitoring of natural calamities, surveillance of border areas, etc. On the basis of configuration and purposes, satellite system in India can be grouped into two: Indian National Satellite System (INSAT) and Indian Remote Sensing Satellite System (IRS). The INSAT, which was established in 1983, is a multi-purpose satellite system for telecommunication, meteorological observation and for various other data and programmes. The IRS satellite system became operational with the launching of IRS-IA in March 1988 from Vaikanour in Russia. India has also developed her own Launching Vehicle PSLV (Polar Satellite Launch Vehicle). These satellites collect data in several spectral bands and transmit them to the ground stations for various uses. The National Remote Sensing Centre (NRSC) at Hyderabad provides facilities for acquisition of data and its processing. These are very useful in the management of natural resources.

_____ is NOT an application of INSAT satellite.

1. Monitoring of Water Resources
2. Telecommunication
3. Weather Forecasting
4. Meteorological Observations

Options 1. 1

2. 2
3. 3

Q.46 Read the given passage carefully and answer the following questions.

The process of development of the tribal area of Bharmaur started in the 1970s when Gaddis were included among 'scheduled tribes'. The Fifth Five-Year Plan, the tribal sub-plan was introduced in 1974 and Bharmaur was designated as one of the five Integrated Tribal Development Projects (ITDP) in Himachal Pradesh. This area development plan was aimed at improving the quality of life of the Gaddis and narrowing the gap in the level of development between Bharmaur and other areas of Himachal Pradesh. This plan laid the highest priority on development of transport and communications, agriculture and allied activities, and social and community services. The most significant contribution of tribal sub-plan in Bharmaur region is the development of infrastructure in terms of schools, healthcare facilities, potable water, roads, communications and electricity. But the villages located along the river Ravi in Holi and Khani areas are the main beneficiaries of infrastructural development. The remote villages in Tundah and Kugti areas still do not have sufficient infrastructure. The social benefits derived from ITDP include tremendous increase in literacy rate, improvement in sex ratio and decline in child marriage. The female literacy rate in the region increased from 1.88 percent in 1971 to 65 percent in 2011. The difference between males and females in literacy level i.e. gender inequality, has also declined. Traditionally, the Gaddis had a subsistence agricultural-cum-pastoral economy, having an emphasis on food grains and livestock production. But during the last three decades of the twentieth century, the cultivation of pulses and other cash crops has increased in Bharmaur region. But crop cultivation is still done with traditional technology.

Which of the following is the social benefit of implementing the tribal sub-plan in the Bharmaur region?

1. Construction of Road
2. Electricity Connection
3. Decline in Child Marriage
4. Agricultural Development

Options 1. 1

2. 2
3. 3
4. 4

Q.47 Read the given passage carefully and answer the following questions.

The process of development of the tribal area of Bharmaur started in the 1970s when Gaddis were included among 'scheduled tribes'. The Fifth Five-Year Plan, the tribal sub-plan was introduced in 1974 and Bharmaur was designated as one of the five Integrated Tribal Development Projects (ITDP) in Himachal Pradesh. This area development plan was aimed at improving the quality of life of the Gaddis and narrowing the gap in the level of development between Bharmaur and other areas of Himachal Pradesh. This plan laid the highest priority on development of transport and communications, agriculture and allied activities, and social and community services. The most significant contribution of tribal sub-plan in Bharmaur region is the development of infrastructure in terms of schools, healthcare facilities, potable water, roads, communications and electricity. But the villages located along the river Ravi in Holi and Khani areas are the main beneficiaries of infrastructural development. The remote villages in Tundah and Kugti areas still do not have sufficient infrastructure. The social benefits derived from ITDP include tremendous increase in literacy rate, improvement in sex ratio and decline in child marriage. The female literacy rate in the region increased from 1.88 percent in 1971 to 65 percent in 2011. The difference between males and females in literacy level i.e. gender inequality, has also declined. Traditionally, the Gaddis had a subsistence agricultural-cum-pastoral economy, having an emphasis on food grains and livestock production. But during the last

three decades of the twentieth century, the cultivation of pulses and other cash crops has increased in Bharmaur region. But crop cultivation is still done with traditional technology.

Which of the following region is still backward in the Bharmaur region even after implementing the tribal sub-plan?

1. Tundah and Kugti area
2. Holi area
3. Khani area
4. Regions near the Kangra

Options 1. 1

2. 2

3. 3

4. 4

Q.48 Read the given passage carefully and answer the following questions.

The process of development of the tribal area of Bharmaur started in the 1970s when Gaddis were included among 'scheduled tribes'. The Fifth Five-Year Plan, the tribal sub-plan was introduced in 1974 and Bharmaur was designated as one of the five Integrated Tribal Development Projects (ITDP) in Himachal Pradesh. This area development plan was aimed at improving the quality of life of the Gaddis and narrowing the gap in the level of development between Bharmaur and other areas of Himachal Pradesh. This plan laid the highest priority on development of transport and communications, agriculture and allied activities, and social and community services. But the villages located along the river Ravi in Holi and Khani areas are the main beneficiaries of infrastructural development. The remote villages in Tundah and Kugti areas still do not have sufficient infrastructure. The social benefits derived from ITDP include tremendous increase in literacy rate, improvement in sex ratio and decline in child marriage. The female literacy rate in the region increased from 1.88 percent in 1971 to 65 percent in 2011. The difference between males and females in literacy level i.e. gender inequality, has also declined. Traditionally, the Gaddis had a subsistence agricultural-cum-pastoral economy, having an emphasis on food grains and livestock production. But during the last three decades of the twentieth century, the cultivation of pulses and other cash crops has increased in Bharmaur region. But crop cultivation is still done with traditional technology.

Why was the tribal sub-plan implemented in Bharmaur region?

1. Resource rich region
2. Backwardness of the region
3. Pleasant climate for tourism
4. To check the migration of non-tribals in tribal area

Options 1. 1

2. 2

3. 3

4. 4

Q.49 Read the given passage carefully and answer the following questions.

The process of development of the tribal area of Bharmaur started in the 1970s when Gaddis were included among 'scheduled tribes'. The Fifth Five-Year Plan, the tribal sub-plan was introduced in 1974 and Bharmaur was designated as one of the five Integrated Tribal Development Projects (ITDP) in Himachal Pradesh. This area development plan was aimed at improving the quality of life of the Gaddis and narrowing the gap in the level of development between Bharmaur and other areas of Himachal Pradesh. This plan laid the highest priority on development of transport and communications, agriculture and allied activities, and social and community services. The most significant contribution of

tribal sub-plan in Bharmaur region is the development of infrastructure in terms of schools, healthcare facilities, potable water, roads, communications and electricity. But the villages located along the river Ravi in Holi and Khani areas are the main beneficiaries of infrastructural development. The remote villages in Tundah and Kugti areas still do not have sufficient infrastructure. The social benefits derived from ITDP include tremendous increase in literacy rate, improvement in sex ratio and decline in child marriage.
