**Q.1** Select the correct statements regarding the creativity tests:

- (A) Most of the creative tests are open-ended.
- (B) Persons with a high IQ do extremely well in creativity tests.
- (C) Creativity tests involve divergent thinking.
- (D) Creativity tests involve convergent thinking.
- (E) There is scope for expression of spontaneous responses.

Choose the correct answer from the options given below:

- 1. (B), (C) and (E) only
- 2. (C), (E) and (D) only
- 3. (A), (C) and (E) only
- 4. (A), (B) and (D) only

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

**Q.2** Identify the elements of group structure:

- (A) Roles
- (B) Isolation
- (C) Norms
- (D) Cohesiveness
- (E) Status

Choose the correct answer from the options given below:

- 1. (A), (B) (C) and (E) only
- 2. (A), (C), (D) and (E) only
- 3. (B), (C) and (D) only
- 4. (B), (C), (D) and (E) only

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

**Q.3** When someone says that he/she is a Hindu or a Muslim or an Adivasi or a North Indian or South Indian, what is he/she trying to refer to?

- 1. Social identity
- 2. Personal identity
- 3. Biological self
- 4. Personal self

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

**Q.4** Match List-I with List-II

List-I

(A) Uni-Factor Theory

(B) Theory of Primary Mental Abilities

(C) Theory of Multiple Intelligences

(D) Two-Factor Theory

List-II

(I) Howard Gardner

(II) Charles Spearman

(III) Alfred Binet

(IV) Louis Thurstone

Choose the correct answer from the options given below:

- 1. (A) - (II), (B) - (III), (C) - (IV), (D) - (I)
- 2. (A) - (IV), (B) - (III), (C) - (II), (D) - (I)
- 3. (A) - (III), (B) - (IV), (C) - (I), (D) - (II)
- 4. (A) - (II), (B) - (III), (C) - (I), (D) - (IV)

Options 1. 1

2. 2

3. 3

4. 4

**Q.5** Ridhima is a thin, tall and fragile girl. She is quiet, though brainy and artistic. Which personality typology would she come under?

1. Endomorphic

2. Type-A

3. Ectomorphic

4. Type-C

Options 1. 1

2. 2

3. 3

4. 4

**Q.6** Match List-I with List-II

List-I

List-II

(A) Delusions of persecution (I) People believe themselves to be specially empowered

(B) Delusions of reference (II) People believe that their feelings, thoughts and actions are being controlled by others

(C) Delusions of grandeur (III) People believe that they are being plotted against or spied on

(D) Delusions of control (IV) People attach special and personal meaning to the actions of others, or to objects and events

Choose the correct answer from the options given below:

1. (A) - (II), (B) - (IV), (C) - (I), (D) - (III)

2. (A) - (III), (B) - (I), (C) - (IV), (D) - (II)

3. (A) - (II), (B) - (III), (C) - (IV), (D) - (I)

4. (A) - (III), (B) - (IV), (C) - (I), (D) - (II)

Options 1. 1

2. 2

3. 3

4. 4

**Q.7** According to Tuckman's stages of group formation, storming stage is followed by which stage?

1. Norming

2. Forming

3. Performing

4. Adjourning

Options 1. 1

2. 2

3. 3

4. 4

**Q.8** Match List-I with List-II

List-I

List-II

(A) Id (I) Reality principle

(B) Ego (II) Pleasure principle

(C) Super-ego (III) Instinctual life force

(D) Libido (IV) Moral principle

Choose the correct answer from the options given below:

1. (A) - (I), (B) - (IV), (C) - (II), (D) - (III)

2. (A) - (II), (B) - (I), (C) - (IV), (D) - (III)

3. (A) - (II), (B) - (I), (C) - (III), (D) - (IV)

4. (A) - (IV), (B) - (III), (C) - (I), (D) - (II)

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

**Q.9** Raj has an I.Q. of 120 and is classified as superior in intellectual capacity. His Mental Age (M. A.) is 12. What would his chronological age be (C. A.)?

- 1. 12
- 2. 11
- 3. 13
- 4. 10

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

**Q.10** Arthur Jensen proposed a hierarchical model of intelligence consisting of abilities operating at two levels, called Level I and Level II. Level II is known as:

- 1. Associative learning
- 2. Emotional competence
- 3. Cognitive competence
- 4. Social competence

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

**Q.11** Discrimination is a/an \_\_\_\_\_ component of prejudice.

- 1. Behavioural
- 2. Cognitive
- 3. Affective
- 4. Biogenic

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

**Q.12** Which of the following model proposed by J. P. Guilford classifies intellectual traits into three dimensions: operations, contents and products?

- 1. Hierarchical
- 2. PASS Model
- 3. Triarchic
- 4. Structure-of-Intellect

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

**Q.13** Choose the correct statement regarding the delusion:

1. Delusion is a false belief held on inadequate grounds
2. Delusion is a perception that occurs in the absence of external stimuli
3. Delusion involves disorganised speech
4. Delusion involves making odd grimaces and gestures

Options 1. 1

2. 2
3. 3
4. 4

**Q.14** Parameters like commitment, persistence, hardwork and goal directed behaviour are characteristics of:

1. Cognitive capacity
2. Emotional competence
3. Entrepreneurial competence
4. Social competence

Options 1. 1

2. 2
3. 3
4. 4

**Q.15** Tarun believes that he is capable of selecting, influencing and even constructing the circumstances of his own life. He had a bad habit of smoking, but the moment he became a father he decided to quit the habit, and he never returned to it again. Which aspect of Tarun's self is being reflected here?

1. Self-esteem
2. Self-efficacy
3. Self-concept
4. Self-instruction

Options 1. 1

2. 2
3. 3
4. 4

**Q.16** Match List-I with List-II

List-I                      List-II

(A) Interest                (I) Relatively enduring characteristics of a person that make him/her distinct from others

(B) Values                (II) An individual's preference for engaging in one or more specific activities relative to others

(C) Aptitude                (III) An enduring belief in an ideal mode of behaviour

(D) Personality                (IV) An individual's underlying potential for acquiring a skill

Choose the correct answer from the options given below:

1. (A) - (III), (B) - (IV), (C) - (I), (D) - (II)
2. (A) - (III), (B) - (II), (C) - (IV), (D) - (I)
3. (A) - (IV), (B) - (I), (C) - (II), (D) - (III)
4. (A) - (III), (B) - (II), (C) - (IV), (D) - (I)

Options 1. 1

2. 2
3. 3
4. 4

**Q.17** Age-inappropriate stubbornness, irritability, disobedience, and behaving in a hostile manner are the main features of \_\_\_\_\_.

1. Attention deficit hyperactive disorder
2. Oppositional defiant disorder
3. Conduct disorder
4. Autism spectrum disorder

Options 1. 1

2. 2
3. 3
4. 4

**Q.18** The frequency distribution for the IQ scores tends to approximate a \_\_\_\_\_.

1. bell shaped curve
2. U shaped curve
3. flat curve
4. straight line

Options 1. 1

2. 2
3. 3
4. 4

**Q.19** Identify the dissociative disorders from the following disorders:

- (A) Dissociative amnesia
- (B) Illness anxiety disorder
- (C) Dissociative identity disorder
- (D) Derealization/ Depersonalization disorder
- (E) Dissociative fugue

Choose the correct answer from the options given below:

1. (A), (C), (D) and (E) only
2. (A), (B), (C) and (D) only
3. (B), (C), (D) and (E) only
4. (A), (B), (C) and (E) only

Options 1. 1

2. 2
3. 3
4. 4

**Q.20** Twins separated early in childhood show considerable similarity in their intellectual personality and behavioural characteristics. The intelligence of identical twins reared in different environments correlate \_\_\_\_\_.

1. 0.90
2. 0.60
3. 0.50
4. 0.72

Options 1. 1

2. 2
3. 3
4. 4

**Q.21** Systematic desensitisation is a technique used to treat phobias or irrational fears. Arrange the steps followed in this technique to treat the disorder:

- (A) The therapist together with the client prepares a hierarchy of fear-provoking situations.
- (B) Client is interviewed to elicit fear-provoking situations.
- (C) The therapist relaxes the client and asks the client to think of the least fear-provoking situation.
- (D) The client is asked to stop thinking of the fearful situation if the slightest tension is felt.
- (E) Over the sessions, the client is able to imagine more severe fear-provoking situations while maintaining relaxation.

Choose the correct answer from the options given below:

1. (B), (C), (D), (A), (E)
2. (A), (B), (C), (D), (E)
3. (C), (D), (E), (A), (B)
4. (B), (A), (C), (D), (E)

Options 1. 1

2. 2
3. 3
4. 4

**Q.22** Diathesis-stress model has \_\_\_\_\_ components.

1. 2
2. 3
3. 4
4. 5

Options 1. 1

2. 2
3. 3
4. 4

**Q.23** Which of the following statement is correct in relation to 'Groupthink'?

1. Member are bound by rules and regulations which they have to follow
2. There is consensus or unanimous agreement within a group
3. Members in a cohesive group feel and act like isolated individuals
4. Members feel they can easily join or leave the group

Options 1. 1

2. 2
3. 3
4. 4

**Q.24** Which of the following is associated with the 'P-O-X' triangle?

1. Two step concept
2. Concept of balance
3. Cognitive dissonance
4. Internalization

Options 1. 1

2. 2
3. 3
4. 4

**Q.25** Who developed minimal group paradigm?

1. Tajfel and colleagues
2. Hall and associates
3. Irving Janis
4. Latane and associates

Options 1. 1

2. 2
3. 3
4. 4

**Q.26** Aishwarya opted for the humanities stream in class XI as she was extremely fond of her history teacher in class 9 and 10. She decided to study history as she liked the way her teacher carried herself and spoke in class. Aishwarya formed her attitude by \_\_\_\_\_.

1. being rewarded
2. modelling
3. cultural norms
4. conditioning

Options 1. 1

2. 2

3. 3

4. 4

**Q.27** The thought component of an attitude is referred to as cognitive aspect.

1. affective
2. cognitive
3. behavioral
4. conative

Options 1. 1

2. 2

3. 3

4. 4

**Q.28** Match List-I with List-II

List-I

(A) Sixteen Personality Factor Questionnaire

(B) Thematic Apperception Test

(C) Minnesota Multiphasic Personality Inventory

(D) Inkblot Test

List-II

(I) Morgan and Murray

(II) Hathaway and McKinley

(III) Rorschach

(IV) Cattell

Choose the correct answer from the options given below:

1. (A) - (IV), (B) - (I), (C) - (III), (D) - (III)
2. (A) - (IV), (B) - (III), (C) - (II), (D) - (I)
3. (A) - (III), (B) - (IV), (C) - (I), (D) - (II)
4. (A) - (II), (B) - (III), (C) - (IV), (D) - (I)

Options 1. 1

2. 2

3. 3

4. 4

**Q.29** The positivity and negativity of an existing attitude points toward which aspect of attitude?

1. Extremeness
2. Simplicity
3. Valence
4. Centrality

Options 1. 1

2. 2

3. 3

4. 4

**Q.30** The Oedipus complex occurs in which stage of Freud's theory of psychosexual development?

1. Oral Stage
2. Anal Stage
3. Phallic Stage
4. Latency Stage

Options 1. 1

2. 2

3. 3

4. 4

**Q.31** Identify the correct facts related to projective techniques from the statements below:

- (A) This method is often used for peer assessment  
(B) Projective techniques were developed to assess unconscious motives and feelings  
(C) One of the drawbacks of this technique is social desirability

(D) Technique is based on the assumption that less structured or unstructured stimuli will allow an individual to project his/her feelings onto that situation

(E) Examples include inkblots, story writing around pictures and sentence completion

Choose the correct answer from the options given below:

1. (A), (B) and (C) only
2. (B), (D) and (E) only
3. (B), (C) and (D) only
4. (C), (D) and (E) only

Options 1. 1

2. 2
3. 3
4. 4

**Q.32** Persons who have \_\_\_\_\_ and do not have sufficient confidence in themselves, change their attitudes more easily.

1. strong prejudices
2. high self-esteem
3. low self-esteem
4. more intelligence

Options 1. 1

2. 2
3. 3
4. 4

**Q.33** A child has difficulty going to school alone and being in a room by himself/herself. He/she fears entering new situations and clings to his/her parents. These symptoms are indicative of:

1. Phobia
2. Separation anxiety disorder
3. Obsessive-compulsive disorder
4. Generalised anxiety disorder

Options 1. 1

2. 2
3. 3
4. 4

**Q.34** When all the good singers of class 9 were put together to make a choir, it was seen that there was a reduction in the amount of effort each member put in. What is this phenomenon called?

1. Social facilitation
2. Social loafing
3. Social inhibition
4. Social polarisation

Options 1. 1

2. 2
3. 3
4. 4

**Q.35** Arrange Freud's Psychosexual stages of development in correct order:

- (A) Oral stage
- (B) Anal stage
- (C) Genital stage
- (D) Phallic stage
- (E) Latency stage

Choose the correct answer from the options given below:

1. (A), (B), (D), (E), (C)

2. (A), (B), (C), (D), (E)
3. (B), (C), (A), (D), (E)
4. (C), (B), (A), (D), (E)

Options 1. 1

2. 2
3. 3
4. 4

**Q.36** Which disorder has been linked to an excess activity of dopamine neurotransmitter?

1. Anxiety
2. Depression
3. Dissociative identity disorder
4. Schizophrenia

Options 1. 1

2. 2
3. 3
4. 4

**Q.37** Which of the following dimension was proposed as a third dimension of personality by Eysenck in his later work?

1. Psychoticism Vs. Sociability
2. Neuroticism Vs. Emotional stability
3. Psychoticism Vs. Extraversion
4. Extraversion Vs. Introversion

Options 1. 1

2. 2
3. 3
4. 4

**Q.38** Arrange the sequence of events as they occurred in the experiment relating to "Telling a Lie for Twenty Dollars":

- (A) The responses showed that the 1groupdescribedtheexperimentasmoreinterestingthanthe20 group students
- (B) Students participated in a very boring experiment
- (C) Students were asked to tell another group of students waiting outside that the experiment was very interesting
- (D) For telling the lie, half of the group was given 1andtheotherhalf20
- (E) After some weeks, the participants of the boring experiment were asked to recall how interesting the experiment was

Choose the correct answer from the options given below:

1. (D), (B), (C), (A), (E)
2. (B), (C), (D), (E), (A)
3. (C), (D), (B), (E), (A)
4. (B), (C), (D), (E), (A)

Options 1. 1

2. 2
3. 3
4. 4

**Q.39** Arrange the steps in the clinical formulation of a client's problem in correct order:

- (A) Understanding the client's problem and its implications by the therapist
- (B) Implementing the technique chosen in clinical formulation
- (C) Identifying the areas to be targeted for treatment in psychotherapy
- (D) Choosing the technique for treatment

Choose the correct answer from the options given below:

1. (A), (B), (C), (D)
2. (D), (B), (A), (C)
3. (C), (A), (D), (B)
4. (A), (C), (D), (B)

Options 1. 1

2. 2
3. 3
4. 4

**Q.40** Arrange in order of highest to lowest correlation of IQ among various types of children:

- (A) Identical twins reared together
- (B) Identical twins reared apart
- (C) Fraternal twins reared together
- (D) Siblings reared apart

Choose the correct answer from the options given below:

1. (A), (D), (C), (B)
2. (A), (D), (B), (C)
3. (A), (C), (D), (B)
4. (A), (B), (C), (D)

Options 1. 1

2. 2
3. 3
4. 4

**Q.41** Read the passage and answer the following questions:

Mrs. Sharma is a mother of two children aged 7 and 9 years. Both of them are very notorious and do not listen to her instructions. With every passing day, it is becoming difficult for her to regulate their behaviour. She is not able to discipline them, which she considers an important part of a successful life. One day, she comes across an article in which it is mentioned that if a mother observes behavioural issues in her child, she can apply a technique to modify the undesirable behavior of the child. According to this technique, Mrs. Sharma can give coupons to her children whenever they exhibit desirable behaviours. The coupons could later be exchanged by them for some tangible things such as candy, toys etc. Surprisingly, this technique worked very effectively with her children. In another article she came to know about another technique to modify behavior in which undesirable behavior can be reduced, and desirable behavior can be increased simultaneously.

Identify the technique from the following options in which undesirable behaviour can be reduced, and desirable behaviour can be increased simultaneously.

1. Positive reinforcement
2. Differential reinforcement
3. Negative reinforcement
4. Punishment

Options 1. 1

2. 2
3. 3
4. 4

**Q.42** Read the passage and answer the following questions:

Mrs. Sharma is a mother of two children aged 7 and 9 years. Both of them are very notorious and do not listen to her instructions. With every passing day, it is becoming difficult for her to regulate their behaviour. She is not able to discipline them, which she considers an important part of a successful life. One day, she comes across an article in which it is mentioned that if a mother observes behavioural issues in her child, she can apply a technique to modify the undesirable behavior of the child. According to this technique, Mrs. Sharma can give coupons to her children whenever they exhibit desirable behaviours. The coupons could later be

exchanged by them for some tangible things such as candy, toys etc. Surprisingly, this technique worked very effectively with her children. In another article she came to know about another technique to modify behavior in which undesirable behavior can be reduced, and desirable behavior can be increased simultaneously.

The technique applied by Mrs. Sharma to reinforce desirable behaviour of her children is known as:

1. Unconditional positive regard
2. Negative reinforcement
3. Token economy
4. Biofeedback

Options 1. 1

2. 2
3. 3
4. 4

**Q.43** Read the passage and answer the following questions:

Mrs. Sharma is a mother of two children aged 7 and 9 years. Both of them are very notorious and do not listen to her instructions. With every passing day, it is becoming difficult for her to regulate their behaviour. She is not able to discipline them, which she considers an important part of a successful life. The coupons could later be exchanged by them for some tangible things such as candy, toys etc. Surprisingly, this technique worked very effectively with her children. In another article she came to know about another technique to modify behavior in which undesirable behavior can be reduced, and desirable behavior can be increased simultaneously.

The techniques mentioned in the passage is applied in which form of therapy?

1. Humanistic therapy
2. Behaviour therapy
3. Psychodynamic therapy
4. Existential therapy

Options 1. 1

2. 2
3. 3
4. 4

**Q.44** Read the passage and answer the following questions:

Mrs. Sharma is a mother of two children aged 7 and 9 years. Both of them are very notorious and do not listen to her instructions. With every passing day, it is becoming difficult for her to regulate their behaviour. She is not able to discipline them, which she considers an important part of a successful life. In another article she came to know about another technique to modify behavior in which undesirable behavior can be reduced, and desirable behavior can be increased simultaneously.

Which of the following is not a suitable exchange for strengthening the desirable behavior of a child?

1. Getting favourite food
2. Outing with the parents
3. Purchase of a new toy
4. Scolding

Options 1. 1

2. 2

3. 3

4. 4

**Q.45** Read the passage and answer the following questions:

Mrs. Sharma is a mother of two children aged 7 and 9 years. Both of them are very notorious and do not listen to her instructions. With every passing day, it is becoming difficult for her to regulate their behaviour. She is not able to discipline them, which she considers an important part of a successful life. One day, she comes across an article in which it is mentioned that if a mother observes behavioural issues in her child, she can apply a technique to modify the undesirable behavior of the child. In another article she came to know about another technique to modify behavior in which undesirable behavior can be reduced, and desirable behavior can be increased simultaneously.

The techniques used by Mrs. Sharma may be effective with children who are having issues related to:

1. Self-esteem
2. Decision-making
3. Conflict-management
4. Behavioural problems

Options 1. 1

2. 2

3. 3

4. 4

**Q.46** Read the following passage.

Meenal is the only girl from her village who has reached High School. For this, she has to move away from her village and stay in the city. She has made a lot of friends and every time she is invited by them to attend parties, she is unable to say 'no' to them. This leaves her with less time to study, which adds to her stress level. She has been procrastinating her work and spends more time thinking that she will not be successful in life. This has increased her tension and resulted in a lack of confidence in her. Quite often she vents out her feelings of anger and frustration at her parents. Her teacher, who had been observing her, advised her to take charge of herself and seek professional help from a psychologist who uses cognitive behavioural techniques to reduce stress.

Which of the following condition best describes a conflict?

1. There is an obstacle in the achievement of a goal.
2. There are expectations from ourselves.
3. People around us make excessive demands on us.
4. One has to choose between two or more incompatible needs or motives.

Options 1. 1

2. 2

3. 3

4. 4

**Q.47** Read the following passage.

Meenal is the only girl from her village who has reached High School. For this, she has to move away from her village and stay in the city. She has made a lot of friends and every time she is invited by them to attend parties, she is unable to say 'no' to them. This leaves her with less time to study, which adds to her stress level. She has been procrastinating her work and spends more time thinking that she will not be successful in life. This has increased her tension and resulted in a lack of confidence in her. Quite often she vents out her feelings of anger and frustration at her parents. Her teacher, who had been observing her, advised her to take

charge of herself and seek professional help from a psychologist who uses cognitive behavioural techniques to reduce stress.

On many occasions, it became difficult for Meenal to say 'No' to her friends. Why is it important for Meenal to be assertive?

1. To gain confidence and to express her opinion and emotions openly
2. To keep everyone happy in the end
3. To help her to make more friends and gain recognition
4. To learn ways to communicate and know about the latest fashion

Options 1. 1

2. 2
3. 3
4. 4

**Q.48** Read the following passage.

Meenal is the only girl from her village who has reached High School. For this, she has to move away from her village and stay in the city. She has made a lot of friends and every time she is invited by them to attend parties, she is unable to say 'no' to them. This leaves her with less time to study, which adds to her stress level. She has been procrastinating her work and spends more time thinking that she will not be successful in life. This has increased her tension and resulted in a lack of confidence in her. Quite often she vents out her feelings of anger and frustration at her parents. Her teacher, who had been observing her, advised her to take charge of herself and seek professional help from a psychologist who uses cognitive behavioural techniques to reduce stress.

What would you suggest to Meenal to manage her time?

1. Plan her time and delegate her responsibilities to her friends
2. Spend time doing things that she values to help achieve her goal
3. Organize her life for work-life imbalance
4. Keep herself healthy and relaxed

Options 1. 1

2. 2
3. 3
4. 4

**Q.49** Read the following passage.

Meenal is the only girl from her village who has reached High School. For this, she has to move away from her village and stay in the city. She has made a lot of friends and every time she is invited by them to attend parties, she is unable to say 'no' to them. This leaves her with less time to study, which adds to her stress level. She has been procrastinating her work and spends more time thinking that she will not be successful in life. This has increased her tension and resulted in a lack of confidence in her. Quite often she vents out her feelings of anger and frustration at her parents. Her teacher, who had been observing her, advised her to take charge of herself and seek professional help from a psychologist who uses cognitive behavioural techniques to reduce stress.

Identify the statements that are true for cognitive behavioural techniques:

- (A) It is a subjective experience that uses imagery and imagination.
- (B) It replaces negative and irrational thoughts with positive and rational ones.
- (C) It reduces the risk of interference from unbidden thoughts and turns imagined scenes into reality.
- (D) Its main phases are assessment, application of stress reduction techniques and follow-up.
- (E) It monitors and reduces physiological aspects of strain by providing feedback and is accompanied by relaxation.

Choose the correct answer from the options given below:

1. (A) and (C) only
2. (C) and (E) only
3. (B) and (D) only
4. (B) and (E) only

Options 1. 1

2. 2

3. 3

4. 4

**Q.50** Read the following passage.

Meenal is the only girl from her village who has reached High School. For this, she has to move away from her village and stay in the city. She has made a lot of friends and every time she is invited by them to attend parties, she is unable to say 'no' to them. This leaves her with less time to study, which adds to her stress level. She has been procrastinating her work and spends more time thinking that she will not be successful in life. This has increased her tension and resulted in a lack of confidence in her. Quite often she vents out her feelings of anger and frustration at her parents. Her teacher, who had been observing her, advised her to take charge of herself and seek professional help from a psychologist who uses cognitive behavioural techniques to reduce stress.

"She vents out her feeling of anger and frustration on her parents." Identify the type of coping strategy used by Meenal.

1. Avoidance oriented strategy

2. Task oriented strategy

3. Problem-focused strategy

4. Emotion-focused strategy

Options 1. 1

2. 2

3. 3

4. 4
