

Section : Psychology

Q.1 Rohit aged 7, sulks and cries when he is not allowed to play cricket with his friends. Choose the techniques/therapy which is most suitable for bringing a change in his undesirable behaviour.

- (A) Token economy
- (B) Differential reinforcement
- (C) Electro-convulsive therapy
- (D) Systematic desensitisation

Choose the correct answer from the options given below:

- 1. (B) and (C) only
- 2. (A) and (B) only
- 3. (B) and (D) only
- 4. (A) and (D) only

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Q.2 Identify the strategy of handling prejudice in this scenario: "different communities celebrate festivals together in one place and exchange food and gift items".

- 1. Highlighting individual identity rather than group identity
- 2. Increasing intergroup contact
- 3. Education and information dissemination
- 4. Discouraging tendency towards self-fulfilling prophecy

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Q.3 Match List-I with List-II

List-I

List-II

- | | |
|----------------------|------------------------------------|
| (A) Performance Test | (I) ASVAB |
| (B) Non-Verbal Test | (II) Draw-A-Man Test |
| (C) Verbal Test | (III) Raven's Progressive Matrices |
| (D) Aptitude Test | (IV) Stanford-Binet Test |

Choose the correct answer from the options given below:

- 1. (A) - (IV), (B) - (I), (C) - (II), (D) - (III)
- 2. (A) - (IV), (B) - (III), (C) - (II), (D) - (I)
- 3. (A) - (II), (B) - (III), (C) - (IV), (D) - (I)
- 4. (A) - (III), (B) - (IV), (C) - (I), (D) - (II)

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Q.4 Which of the following is NOT a characteristic of a group?

- 1. A gathering of individuals who hardly interact with each other
- 2. Collection of individuals having common motives
- 3. Collection of individuals who are interdependent
- 4. Collection of individuals who follow a set of rules

Options 1. 1

- 2. 2

3. 3

4. 4

Q.5 Identify the statements that are correct about the influence of hereditary on intelligence:

(A) The intelligence of identical twins reared together correlates almost 0.90.

(B) The intelligence of brothers and sisters reared together correlates about 0.65.

(C) The intelligence of identical twins reared in different environments correlates about 0.72.

(D) The intelligence of siblings reared apart correlates about 0.25.

Choose the correct answer from the options given below:

1. (A), (C) and (D) only

2. (B), (C) and (D) only

3. (A), (B), (C) and (D)

4. (B) and (C) only

Options 1. 1

2. 2

3. 3

4. 4

Q.6 Match List-I with List-II

List-I List-II

(A) Status (III) Relative social position given to group members by others

(B) Norms (I) Expected standards of behavior and beliefs

(C) Roles (IV) Socially defined expectations

(D) Cohesiveness (II) Mutual attraction among group members

Choose the correct answer from the options given below:

1. (A) - (I), (B) - (IV), (C) - (III), (D) - (II)

2. (A) - (I), (B) - (III), (C) - (IV), (D) - (II)

3. (A) - (III), (B) - (I), (C) - (IV), (D) - (II)

4. (A) - (III), (B) - (IV), (C) - (I), (D) - (II)

Options 1. 1

2. 2

3. 3

4. 4

Q.7 Identify the type of effects of stress reflected in this narration: "An employee working in a particular company is highly burdened with work, which is affecting his decision-making and concentration".

1. Behavioural

2. Physiological

3. Cognitive

4. Emotional

Options 1. 1

2. 2

3. 3

4. 4

Q.8 Who is known as the father of modern stress research?

1. David Lazarus

2. Hans Selye

3. Sigmund Freud

4. Carl Rogers

Options 1. 1

2. 2
3. 3
4. 4

Q.9 Which of the following is NOT a criterion of 4Ds of abnormality?

1. Deviance
2. Danger
3. Distress
4. Dissociation

Options

1. 1
2. 2
3. 3
4. 4

Q.10 Match List-I with List-II

List-I

(A) Specifies the behaviors considered intelligent in a particular culture

(B) Specifies the cognitive processes that underline all intelligent behavior

(C) Encode, combine and compare information

(D) Control, monitor and evaluate cognitive processing

List-II

(I) Metacomponents

(II) Contextual subtheory

(III) Componential subtheory

(IV) Knowledge acquisition components

Choose the correct answer from the options given below:

1. (A) - (I), (B) - (II), (C) - (III), (D) - (IV)
2. (A) - (II), (B) - (III), (C) - (IV), (D) - (I)
3. (A) - (I), (B) - (II), (C) - (IV), (D) - (III)
4. (A) - (III), (B) - (IV), (C) - (I), (D) - (II)

Options

1. 1
2. 2
3. 3
4. 4

Q.11 The Thematic Apperception Test was developed by:

1. Rosenzweig
2. Morgan and Murray
3. Binet and Simon
4. Hermann Rorschach

Options

1. 1
2. 2
3. 3
4. 4

Q.12 Calculate the Intelligence Quotient of an individual who is 12 years old and has the mental age of a 12-years old.

1. 100
2. 110
3. 120
4. 90

Options

1. 1
2. 2
3. 3
4. 4

Q.13 Match List-I with List-II

List-I	List-II
(A) Verbal	(I) Requires the administrator to be sensitive to the feelings and moods of the subject
(B) Non-verbal	(II) Can be administered on literates only
(C) Performance	(III) Uses pictures and illustrations
(D) Individual	(IV) Manipulation of objects and other materials is required to perform a task

Choose the correct answer from the options given below:

- (A) - (II), (B) - (III), (C) - (IV), (D) - (I)
- (A) - (I), (B) - (II), (C) - (III), (D) - (IV)
- (A) - (I), (B) - (III), (C) - (IV), (D) - (II)
- (A) - (III), (B) - (IV), (C) - (I), (D) - (II)

Options 1. 1

2. 2
3. 3
4. 4

Q.14 Self esteem is the _____.

1. confidence the person has in himself/herself
2. value judgement of a person about their own self
3. ability to regulate one's own behaviour
4. belief in one's own ability

Options 1. 1

2. 2
3. 3
4. 4

Q.15 When a famous film actress pledges her eyes for donation after death, it is observed that there is a surge in the number of people doing the same. What factor influences this change in people's attitude?

1. Rational appeal
2. Attractiveness
3. Self-esteem
4. Persuasibility

Options 1. 1

2. 2
3. 3
4. 4

Q.16 The process of 'Groupthink' was discovered by:

1. H. Tajfel
2. M. Sherif
3. S. Asch
4. I. Janis

Options 1. 1

2. 2
3. 3
4. 4

Q.17 Who proposed Gestalt therapy?

1. Albert Bandura and William James
2. Freidrerick Perls and Laura Perls
3. Victor Frankl and Rolo May
4. Carl Rogers and Abraham Maslow

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Q.18 Who proposed the hierarchical model of intelligence?

- 1. Charles Spearman
- 2. Arthur Jensen
- 3. J. P. Guilford
- 4. Alfred Binet

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Q.19 Match List-I with List-II

List-I

List-II

- | | |
|----------------------|---------------------------------------|
| (A) Cardinal traits | (I) Quite generalised dispositions |
| (B) Central traits | (II) Building blocks of personality |
| (C) Secondary traits | (III) Highly generalised dispositions |
| (D) Source traits | (IV) Least generalised dispositions |

Choose the correct answer from the options given below:

- 1. (A) - (II), (B) - (IV), (C) - (III), (D) - (I)
- 2. (A) - (I), (B) - (III), (C) - (II), (D) - (IV)
- 3. (A) - (I), (B) - (II), (C) - (IV), (D) - (III)
- 4. (A) - (III), (B) - (I), (C) - (IV), (D) - (II)

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Q.20 _____ is a collection of people who may be present at a place/situation by chance.

- 1. Crowd
- 2. Team
- 3. Group
- 4. Audience

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Q.21 Arrange the following statements in correct sequence to show how attitude change takes place as per the concept proposed by S. M. Mohsin:

- (A) The regard and attraction of target and source towards each other becomes mutual
- (B) The target also shows an attitude change
- (C) The target of change identifies with the source
- (D) The source changes attitude

Choose the correct answer from the options given below:

- 1. (C), (D), (A), (B)
- 2. (C), (A), (D), (B)
- 3. (D), (B), (C), (A)
- 4. (B), (D), (A), (C)

Options 1. 1

- 2. 2

3. 3

4. 4

Q.22 _____ is the term used to describe the level of stress that is good for a person and is one of the assets for achieving peak performance and managing minor crises.

1. Eustress
2. Distress
3. Acute Stress
4. Strain

Options 1. 1

2. 2
3. 3
4. 4

Q.23 Fear of entering unfamiliar situation is known as:

1. Social phobia
2. Agoraphobia
3. Claustrophobia
4. Specific phobia

Options 1. 1

2. 2
3. 3
4. 4

Q.24 Prateeksha had an irrational fear of lizards and spiders. Her fear was so intense that she would not step into a room if she saw them on the wall even at a distance. Prateeksha's parents were concerned about her condition and wanted it to be treated. Which technique would best treat her phobia?

1. Negative reinforcement
2. Token economy
3. Systematic desensitisation
4. Aversive conditioning

Options 1. 1

2. 2
3. 3
4. 4

Q.25 Which of the following are examples of media-related influences?

- (A) Audio-visual media
- (B) Reference groups
- (C) Internet
- (D) Personal experiences
- (E) Textbooks

Choose the correct answer from the options given below:

1. (B), (C) and (D) only
2. (A), (C) and (E) only
3. (C), (D) and (E) only
4. (A), (B) and (C) only

Options 1. 1

2. 2
3. 3
4. 4

Q.26 Shradha has been desperately trying to get a job but she has not been successful in any job interview. Now, she is depressed and has developed the persistent negative thought that 'nobody likes her'. She believes that she must get

an executive job in an MNC (Multi-National Company) to be loved by others. Which therapy would you suggest to her?

1. Behaviour therapy
2. Psychoanalytic therapy
3. Gestalt therapy
4. Rational emotive therapy

Options 1. 1

2. 2

3. 3

4. 4

Q.27 Adil's parents are successful doctors. On many occasions, Adil had observed them being appreciated and felicitated by prestigious organizations. Due to the recognition of his parents, Adil has developed a liking for this field and has started preparing for medical entrances. What process of attitude formation is most evident here?

1. Learning attitudes by association
2. Learning attitudes by being rewarded or punished
3. Learning attitudes through modelling
4. Learning attitudes through cultural norms

Options 1. 1

2. 2

3. 3

4. 4

Q.28 The following statements are about the Rorschach inkblot test. Arrange them in the sequence as it is administered.

- (A) The subjects are asked what they see in the cards.
(B) Fine judgment about the subject's responses are made in a meaningful context.
(C) The subjects are asked that on what basis they gave their responses.
(D) The subjects are shown the cards.

Choose the correct answer from the options given below:

1. (B), (C), (D), (A)
2. (A), (B), (C), (D)
3. (D), (A), (C), (B)
4. (C), (B), (D), (A)

Options 1. 1

2. 2

3. 3

4. 4

Q.29 Which of these characteristics are correct about gifted children?

- (A) Advanced logical thinking, questioning and problem-solving behavior
(B) Low level of intrinsic motivation and self-esteem
(C) Preference for solitary academic activities
(D) Independent and non-conformist thinking

Choose the correct answer from the options given below:

1. (A), (C) and (D) only
2. (A), (B) and (D) only
3. (A), (B), (C) and (D)
4. (B), (C) and (D) only

Options 1. 1

2. 2

3. 3

4. 4

Q.30 Who suggested that groups pass through five developmental sequences?

1. Tuckman
2. Tajfel
3. Janis
4. Asch

Options 1. 1

2. 2
3. 3
4. 4

Q.31 An individual's underlying potential for acquiring skills is called:

1. Aptitude
2. Interest
3. Personality
4. Values

Options 1. 1

2. 2
3. 3
4. 4

Q.32 Arrange in correct sequence the various steps in the PASS Model of Intelligence:

- (A) A test has been announced by your teacher on a certain syllabus.
(B) You are able to take the test.
(C) You prepare a time schedule, arrange a doubt clearing class and organize group studies.
(D) You start scanning through the chapters, searching for your notes and making flow charts and timelines.

Choose the correct answer from the options given below:

1. (A), (D), (C), (B)
2. (A), (B), (C), (D)
3. (B), (A), (D), (C)
4. (C), (B), (D), (A)

Options 1. 1

2. 2
3. 3
4. 4

Q.33 Which of the following may result due to the blocking of needs and motives by something or someone that hinders us from achieving a desired goal?

1. Conflicts
2. Frustration
3. Internal pressures
4. Social pressures

Options 1. 1

2. 2
3. 3
4. 4

Q.34 Identify the statements that best describe the projective techniques.

- (A) The stimuli are fully structured and well-defined
(B) The person being assessed is aware of the purpose of the assessment
(C) The stimuli are relatively or fully unstructured
(D) Scoring and interpretation are lengthy and sometimes subjective

Choose the correct answer from the options given below:

1. (A) and (C) only
2. (A) and (D) only

3. (C) and (D) only
4. (B) and (C) only

Options 1. 1

2. 2
3. 3
4. 4

Q.35 In psychoanalytic therapy, when the client shows feelings of hostility, anger and resentment toward his/her therapist during the therapeutic process, it is known as:

1. Transference neurosis
2. Resistance
3. Positive transference
4. Negative transference

Options 1. 1

2. 2
3. 3
4. 4

Q.36 Arrange the correct sequence of treatment plan used by a behavioural psychologist:

- (A) A client with psychological distress comes to a psychologist
(B) Causative factors which predispose the client to indulge in mal-adaptive behaviour are identified
(C) The client is interviewed to analyse his/her behaviour patterns
(D) Maintaining factors reinforcing the mal-adaptive behaviours are understood
(E) A treatment package is chosen to eliminate the faulty behaviours and replace them with adaptive behaviour patterns

Choose the correct answer from the options given below:

1. (A), (D) (E), (B), (C)
2. (A), (C), (B), (D), (E)
3. (A), (E), (B), (D), (C)
4. (A), (B), (C), (D), (E)

Options 1. 1

2. 2
3. 3
4. 4

Q.37 The explanations offered for social loafing are:

- (A) Motivation of members decreases because they realise that their contributions will be evaluated on an individual basis.
(B) The performance of the group is not to be compared with other groups.
(C) Group members feel more responsible for the overall task being performed and therefore exert more effort.
(D) There is improper coordination among group members.

Choose the correct answer from the options given below:

1. (C) and (D) only
2. (B) and (D) only
3. (A) and (B) only
4. (A) and (C) only

Options 1. 1

2. 2
3. 3
4. 4

Q.38 The phenomenon in which the majority group places the blame on a minority outgroup for its own social, economic or

political problems is called:

1. Kernel of truth
2. Scapegoating
3. Social cognition
4. Self-fulfilling prophecy

Options 1. 1

2. 2
3. 3
4. 4

Q.39 Which of the following is NOT a part of the ethical standards in psychotherapy?

1. Informed consent
2. Confidentiality
3. Integrity of the professional-client relationship
4. Assurance of successful outcome of therapy

Options 1. 1

2. 2
3. 3
4. 4

Q.40 Identify the state of physical, emotional and psychological exhaustion, in which a person experiences anxiety, hopelessness and helplessness.

1. Burnout
2. Eustress
3. Strain
4. Frustration

Options 1. 1

2. 2
3. 3
4. 4

Q.41 Read the passage below and answer the questions that follow:

Ritika belongs to a family where all the family members have different types of personality. Ritika is an athlete who has a strong build and is muscular. She is courageous and energetic. These characteristics make her an asset to her team. She is very popular among the team-members. On the other hand, her sister Heena is thin and fragile and is an introvert. She is brainy and enjoys painting. Their mother is an extravert, soft and round and is famous among family and friends for her humour and outgoing nature. In contrast, their father is a workaholic, highly motivated and is always short of time. Truly, one seldom sees such a variety under one roof.

Under the 'Type approach', which theorist gave the concept of extravert and introvert?

1. Hippocrates
2. Charak
3. Sheldon
4. Jung

Options 1. 1

2. 2
3. 3
4. 4

Q.42 Read the passage below and answer the questions that follow:

Ritika belongs to a family where all the family members have different types of personality. Ritika is an athlete who has a strong build and is muscular. She is courageous and energetic. These

characteristics make her an asset to her team. She is very popular among the team-members. On the other hand, her sister Heena is thin and fragile and is an introvert. She is brainy and enjoys painting. Their mother is an extravert, soft and round and is famous among family and friends for her humour and outgoing nature. In contrast, their father is a workaholic, highly motivated and is always short of time. Truly, one seldom sees such a variety under one roof.

Use the Type approach to identify what personality type Ritika would fall in:

1. Endomorphic
2. Ectomorphic
3. Mesomorphic
4. Melancholic

Options 1. 1

2. 2
3. 3
4. 4

Q.43 Read the passage below and answer the questions that follow:

Ritika belongs to a family where all the family members have different types of personality. Ritika is an athlete who has a strong build and is muscular. She is courageous and energetic. These characteristics make her an asset to her team. She is very popular among the team-members. On the other hand, her sister Heena is thin and fragile and is an introvert. She is brainy and enjoys painting. Their mother is an extravert, soft and round and is famous among family and friends for her humour and outgoing nature. In contrast, their father is a workaholic, highly motivated and is always short of time. Truly, one seldom sees such a variety under one roof.

Which personality type best describes Ritika and Heena's mother?

1. Ectomorphic
2. Mesomorphic
3. Paranoid
4. Endomorphic

Options 1. 1

2. 2
3. 3
4. 4

Q.44 Read the passage below and answer the questions that follow:

Ritika belongs to a family where all the family members have different types of personality. Ritika is an athlete who has a strong build and is muscular. She is courageous and energetic. These characteristics make her an asset to her team. She is very popular among the team-members. On the other hand, her sister Heena is thin and fragile and is an introvert. She is brainy and enjoys painting. Their mother is an extravert, soft and round and is famous among family and friends for her humour and outgoing nature. In contrast, their father is a workaholic, highly motivated and is always short of time. Truly, one seldom sees such a variety under one roof.

Identify Heena's personality type described in the passage:

1. Endomorphic
2. Mesomorphic
3. Ectomorphic
4. Melancholic

Options 1. 1

2. 2
3. 3
4. 4

Q.45 Read the passage below and answer the questions that follow:

Ritika belongs to a family where all the family members have different types of personality. Ritika is an athlete who has a strong build and is muscular. She is courageous and energetic. These characteristics make her an asset to her team. She is very popular among the team-members. On the other hand, her sister Heena is thin and fragile and is an introvert. She is brainy and enjoys painting. Their mother is an extravert, soft and round and is famous among family and friends for her humour and outgoing nature. In contrast, their father is a workaholic, highly motivated and is always short of time. Truly, one seldom sees such a variety under one roof.

According to Friedman and Rosenman's theory, which personality type does Heena's father fit in?

1. Type A
2. Type B
3. Type C
4. Type D

Options 1. 1

2. 2
3. 3
4. 4

Q.46 Read the passage below and answer the questions that follow:

Ravi was a sales assistant in an electronics shop who got a commission for every sale over and above his monthly salary. For the past few months, he had been behaving differently, and his performance was declining. When his boss checked with him, Ravi reported that he heard voices in his head telling him that the customers were spying on him. In fact, he was confident that someone had embedded a chip in his brain. Therefore, he was feeling threatened and deliberately victimized. Ravi's colleagues complained that he often used new and strange words and reacted inappropriately in any situation. One of Ravi's neighbours also shared that Ravi loved kicking and hurting street dogs and would laugh loudly when they were wounded and bled. It seemed that Ravi needed to visit a mental health professional to seek help.

Which type of hallucination was Ravi experiencing?

1. Tactile
2. Somatic
3. Gustatory
4. Auditory

Options 1. 1

2. 2
3. 3
4. 4

Q.47 Read the passage below and answer the questions that follow:

Ravi was a sales assistant in an electronics shop who got a commission for every sale over and above his monthly salary. For the past few months, he had been behaving differently, and his performance was declining. When his boss checked with him, Ravi reported that he heard voices in his head telling him that the customers were spying on him. In fact, he was confident that someone had embedded a chip in his brain. Therefore, he was feeling threatened and deliberately victimized. Ravi's colleagues complained that he often used new and strange words and reacted inappropriately in any situation. One of Ravi's neighbours also shared that Ravi loved kicking and hurting street dogs and would laugh loudly when they were wounded and bled. It seemed that Ravi needed to visit a mental health professional to seek help.

What was Ravi experiencing when he reported that people were deliberately victimizing and threatening him?

1. Delusion of persecution
2. Delusion of grandeur

3. Hallucination

4. Alogia

Options 1. 1

2. 2

3. 3

4. 4

Q.48 Read the passage below and answer the questions that follow:

Ravi was a sales assistant in an electronics shop who got a commission for every sale over and above his monthly salary. For the past few months, he had been behaving differently, and his performance was declining. When his boss checked with him, Ravi reported that he heard voices in his head telling him that the customers were spying on him. In fact, he was confident that someone had embedded a chip in his brain. Therefore, he was feeling threatened and deliberately victimized. Ravi's colleagues complained that he often used new and strange words and reacted inappropriately in any situation. One of Ravi's neighbours also shared that Ravi loved kicking and hurting street dogs and would laugh loudly when they were wounded and bled. It seemed that Ravi needed to visit a mental health professional to seek help.

Identify the formal thought disorder which is evident in Ravi?

1. Derailment

2. Perseveration

3. Loosening of associations

4. Neologism

Options 1. 1

2. 2

3. 3

4. 4

Q.49 Read the passage below and answer the questions that follow:

Ravi was a sales assistant in an electronics shop who got a commission for every sale over and above his monthly salary. For the past few months, he had been behaving differently, and his performance was declining. When his boss checked with him, Ravi reported that he heard voices in his head telling him that the customers were spying on him. In fact, he was confident that someone had embedded a chip in his brain. Therefore, he was feeling threatened and deliberately victimized. Ravi's colleagues complained that he often used new and strange words and reacted inappropriately in any situation. One of Ravi's neighbours also shared that Ravi loved kicking and hurting street dogs and would laugh loudly when they were wounded and bled. It seemed that Ravi needed to visit a mental health professional to seek help.

In the passage, Ravi's behaviour can be classified under which disorder?

1. Schizophrenia

2. Bipolar disorder

3. Obsessive-compulsive disorder

4. Multiple personality

Options 1. 1

2. 2

3. 3

4. 4

Q.50 Read the passage below and answer the questions that follow:

Ravi was a sales assistant in an electronics shop who got a commission for every sale over and above his monthly salary. For the past few months, he had been behaving differently, and his performance was declining. When his boss checked with him, Ravi reported that he heard voices in his head telling him that the customers were spying on him. In fact, he was confident that someone had embedded a chip in his brain. Therefore, he was feeling threatened and deliberately victimized. Ravi's colleagues complained that he often used new and strange words and reacted

inappropriately in any situation. One of Ravi's neighbours also shared that Ravi loved kicking and hurting street dogs and would laugh loudly when they were wounded and bled. It seemed that Ravi needed to visit a mental health professional to seek help.

When Ravi kicked and hurt street dogs and laughed when they were wounded and bled, which 'D' of the '4 Ds' of abnormal behavior was he largely exhibiting?

1. Deviance
2. Dysfunctional
3. Danger
4. Distress

Options 1. 1

2. 2

3. 3
